"This year, the Youth Tutoring Program is on track to serve more than 400 students with structured, individualized tutoring sessions. After 2 years of online and hybrid services, YTP is excited to be returning to in-person programming! Your gift directly translates to more staff and trained volunteers working with students on skill building activities, homework help and mentoring that transforms lives. Let's work together to build educational equity for YTP students this school year!"

Thank you for your support as a YTP Peer Fundraiser!
